

The sole purpose of this risk assessment is to support schools for all pupils in all year groups to return to school full time from the beginning of the autumn term, **while reducing the risk of coronavirus transmission**

- For the purpose of this risk assessment, the term ‘coronavirus’ to refer to coronavirus disease 2019 (COVID-19).
- Schools must ensure that this risk assessment reflects the local setting and context of the school.
- Staff and unions must be consulted with regard to this risk assessment.
- This risk assessment is not exhaustive and some of the controls will be dynamic. This is issued to schools as a template to assist in the production of a comprehensive document that covers the particular circumstance of the setting – **as such, the risks and risk controls should be deleted/ amended/ added-to to reflect the school.**
- This should be viewed alongside relevant advice and guidance from the Department of Education and reflect any additional subsequent guidance issued to schools.
- When implemented in line with a revised risk assessment, these measures create an inherently safer environment for children and staff where the risk of transmission of infection is substantially reduced.
