

Class 2

We've continued our work in English on Lost and Found, writing sentences with adjectives and conjunctions. We started off by investigating the different types of adjectives we can use in sentences. We then used these in sentences we wrote about our story. In our following lessons, we then worked on using conjunctions to join two simple sentences. To finish our week in English, we have started to write our own adventure story based on our focus text.

We've worked on our threading skills this week in preparation for sewing our sea creature puppets! We've discovered what a tricky task this can be...

Our Geography topic has begun to focus more on the Seven Continents this week. The children have been tasked with locating and recognising each continent. We will continue to work on this next week, starting to discuss their location in relation to the other continents.

In Religious Education, we turned into mini-teachers this week, teaching each other the events of the Creation Story and securing our knowledge of each of the events of the Creation Story.
