

Class 2

What a wonderful second week learning about our new topic—The Great Fire of London. The children have been really enthusiastic about this all week and we have carried out a range of Guided Reading, History and Computing lessons on the theme.

To encourage the children to retain and remember previous learning, we carried out a talk time lesson about our previous theme, Under The Sea. The children were excellent sharing what they had retained and their thoughts in this session.

We've continued our work on addition this week, using physical manipulatives to learn about bridging 10. Below are some photos of our Year 1 children using cones, cubes and the hall floor to help visualise this concept.
