

Class 2

In English this week, the children have been learning the skill of writing paragraphs of sentences that are related to each other. We've included time conjunctions, adjectives and punctuation in our writing about the Great Fire itself. We planned a paragraph as a class, before working partners to write a focused paragraph. We then used these skills to write our own sections of writing.

In Maths this week, we have finished our work on addition and begun to look at subtraction. Year 1 children have looked at subtraction within 20 and we started this with manipulatives and number lines.

Year 2 children have worked on 2 digit—2 digit calculations including exchanging.

Children used time in our role play area this week to create buildings that would have been seen in London during the Fire.
