

Class 1

This week the children had lots of fun making porridge which was a fantastic enhancement to our learning of 'Goldilocks and the three bears.' It also provided a brilliant writing opportunity as well as measuring, following a recipe and discussion. On Remembrance Day, the children learnt about why we mark this day and made their own poppy. In Maths we have been learning more about the composition of 3 and played some great games to help explore this.

"We are pouring the porridge into a cup. We need 1 cup of the oats." Clara

Here are the beautiful poppies we made.

Drew used the bricks and said "I can make 3 by 1 and 1 and 1." Esmae played a game of bunny ears and said "This is 3, 1 and 2 makes 3." Harrison used the loose parts to show the composition of 3. He said "I have 3 conkers, there is 1 and 1 and 1 and that's 3." Niamh made the word 'fab' in phonics using the stones - fab sounding out and blending Niamh!
