

Class 2

This week in Class 2 has been another fantastic week full of so much enthusiasm and learning. Looking back on the week, I cannot believe we have fit so much into our time table...this week has been a week of: subordinate clause writing in English; making predictions in Book Talk; working with denominations of money in Year 2; comparing numbers up to 50 in Year 1; designing and building castles out of clay; exploring materials in science; finding out about fog; dancing in Spanish; learning about how to look after our teeth from the nurse and continuing our work in PE on our dance unit.
