

Class 1

This week the children have enjoyed learning more about space and painted fantastic pictures of the planets. We were so impressed with their use of colour as well as their identification of the size of each planet. They have really enjoyed reading this week's vehicle text 'Beegu' and we were blown away with their writing about what they would send Beegu back to space with. In phonics children learnt the digraphs 'igh' and 'ow.'

"I've got 4 frogs on the log and 1 in the pond. 4 and 1 make 5 frogs!" Ewuradwoa

Jack painted a marvellous picture of Jupiter using a poster to help him with the colours. He sketched it first with his pencil. Well done Jack!

Harrison made a rocket from multilink. He said "It's got lots of colours. Beegu would like it to take her home. It's going to blast off back to space." Clara made a star from the magnetic polyhedrons. She said : "My star has 6 red triangles and 6 blue triangles."
