

December 2021

We have been learning how Christmas is celebrated in Spanish speaking countries. In Mexico, piñatas are an important part of these celebrations, as they represent generosity when they are broken and all the treats inside come out.

By creating their own mini-piñatas, children in **Class 4** have also learned about the art of paper cutting and piñata making in Mexico. The piñatas they produced were wonderfully colourful! Admire their creations!
