

Class 3 Weekly News

Class 3 Weekly News

What another wonderful week in Class 3! We have been very busy continuing our Vikings topic, looking at the timeline of the Viking era and learning about the events that took place.

We have also been learning about the type of foods that the Vikings ate and why they invaded certain countries to acquire these foods! Coincidentally, one of our Class 3 pupils brought in honeycomb which linked perfectly to our Viking topic. Children learnt how honey is made and understood why only rich families used to use it during Viking times.

This week, it has been internet safety week so children were taught about how to be safe online. They created their own avatar using sketecheschool and made their own username and password, remembering to keep it as safe as possible.
