**Safer Internet Day in Class One**      08.02.2022

As a class we listened to the story of Digiduck and the magic castle. We shared our thoughts afterwards:

Albie said "I wouldn't use my mums password to buy something, even if I know the password!"

Jack said "If you aren't really sure then you just shouldn't click on it."

Ella said "If you see something bad that you don't like you can look away and quickly tell your daddy."

Theo said "There's lots of safe apps where you will only see good things and you can't spend money so we can ask mummy to buy those"

We then did lots of activities like making role play masks from the story and acting it out, designing our own safe games and having a go at writing some safety rules for using the internet.
