

Class 2

This week in Class 2, our focus in Maths has been on Logic Problem Solving. We have worked on the skills that are needed to help us solve these problems. In Reading and English, we have started our new focus text - Journey. It is a wonderful picture book that is full of meaning and the children have enjoyed our first week using it in our learning.

Alongside our learning, the children helped to create our Role Play area this week. They created environments, animals and stars.
