

Class 3 Weekly News

Happy Easter Class 3! What an excellent final week. Everybody has worked extremely hard this term.

This week, we were extremely proud of the Easter concert and everyone put 100% into their parts which really brought the show together.

In science, we continued our 'states of matter' unit and used drama to become particles. When 'solid', we were all tightly grouped together so that we could barely move. As 'liquid', we could flow around each other and as gas, we moved quickly and tried to escape. Children then identified different states of matter visible outside.

To end our week, we worked together to create different crosses from around the world. Class 3 focussed on the Salvadorean Cross and the Celtic Cross. Children worked using their knowledge of 'collage' from this term and created some beautiful art.

Have a wonderful Easter break and we will look forward to seeing you in the Summer term!
