

# Class 4 Weekly News

This week in Class 4, Year 6 have been working extremely hard preparing for their upcoming SATS. In Maths this week, we have focused on recapping key learning in shape, position, nets and angles. Also this week, we have started our text 'The Journey': Year 5 were given a series of pictures from the book and they predicted what the story was about before writing their own version. Each child then recorded their story onto our Class Seesaw, with Year 6 watching these after.

Mrs Standish is incredibly proud of both Year groups this week: Year 5 for their fantastic stories and Year 6 for their excellent effort and resilience in their learning. Well done all!
