

Class 1

What another busy week it has been in class 1. The children have been working hard to create our new role play area which will be a garden centre. They voted on a name and settled on 'The Flower Pot.' In Maths we have been learning about height, in phonics we revised the next set of red words and the sound 'ou' and in PE we had lots of fun working together as a team to play parachute games. Wishing you all a lovely weekend. In RE we looked at a range of cards to identify different celebrations.

We introduced the parachute by making the mushroom. We then played a game of trying to keep the ball in the centre.

We used our magic maths words of tallest, taller, shorter and shortest to explore height.

"Niamh is the tallest, she is taller than Esmae and Harrison. Harrison is the shortest." Albie

"My blue tower is much taller than the purple tower because it has lots more cubes on it."
