

Class 1

What a super week we have had in class 1 this week. Sports Day on Tuesday was a real highlight. We have also learnt the scientific way to group animals into the 6 main animal groups. The children also took part in a workshop about the NSPCC Speak out and Stay Safe campaign and they loved meeting a variety of animals on Friday.

Clara could remember the number for Childline and wrote it on our board after our NSPCC workshop on Thursday.

Jack and Harrison made a great team working together to make words with our focus sound 'or' in them. Well done boys!

"The crocodile and the python are both reptiles. Reptiles live on land and in water and they lay eggs. They are covered with scales." Ella

"My favourite race was the egg and spoon race. This is me in the race! I got a sticker!" Eowyn
