

Reception Homework- Friday 10th June 2022

Maths Corner We are exploring numbers beyond 10 so the children are very secure with each number. Can you watch the episode of Numberblocks and then talk about the composition of 11 (one ten and one 1.).

Then have a go at showing 11 by filling a ten frame (see above) with objects and adding one more to make 11. <https://www.bbc.co.uk/iplayer/episode/m000266y/numberblocks-series-3-eleven>

Let's Talk. Let's Write!

Summer finally seems to arrived! This week please talk about signs of the season and write a sentence or sentences about the season. Think

a

about the weather, the clothes you wear, things you enjoy doing in summer. Perhaps you could also draw a lovely summer scene to accompany your writing. Don't forget those capital letters and full stops ensuring your letters are neatly sitting on the line.

Understanding the world

This week we have introduced our new topic 'Africa.' I would like you to create your own project related to Africa and work on this for the next few weeks. Please bring your projects into school on Wednesday 13th July so we can have a look at them. Ideas might include (but not limited to!): Paint and label/make a model of an animal from Africa (possibly with a fact file), make a scene from an African grassland, create a piece of African art, collage the Kenyan flag, papier Mache a shield, 3D model of Africa, make a piece of jewellery, make an African mask, create an African pattern or patterns. Please be as creative as you like and we look forward to seeing your projects.

Set Two Sounds

This week we have revised the sounds 'ow blow the snow' and 'oo poo at the zoo.'

Can you read these words? Can you think of any of your own words with these sounds in? Write a list!
