

Class 3 Weekly News

Class 3 Weekly News

This week in class 3, we have been very busy. We have been learning about decimals in maths, grid references in Geography and we even had a surprise visit from the ice cream van!

To end the week, we spent the day with the road safety team learning all about pedestrian safety.

THE GREEN CROSS CODE

A thorough knowledge of the Green Cross Code is vitally important to primary school children **over 7 years:**

1. First find a safe place to cross
2. Stop just before you get to the kerb
3. Look all around for traffic and listen
4. If traffic is coming, let it pass, look all around again and listen
5. When it is safe go straight across the road - do not run
6. Keep looking and listening for traffic while you cross

STOP - LOOK - LISTEN

On Wednesday afternoon the children were very lucky and had a surprise visit from the ice cream van. It was a very welcome treat to cool the children down in this hot weather. A big thank you to the Bagnall's for organising the treat for us.

To finish off the week, class 3 had a visit from the Road Safety Team at Telford and Wrekin Council. We spent the day learning all about the green cross code and how to be safe pedestrians. Test your children to see if they remember the green cross code. Ask them to tell you 3 things they have learned about keeping safe when walking near roads.

This week in geography we have been looking at grid references and how we plot points on a map. We started by looking at places around the UK and finding the grid references for symbols on a map. Then we looked at our school grounds and had a go at drawing them on a map. We are still to finish the maps, but when we have finished we will have a go at writing grid references for points around our school.
