

# Class 2

This week in Class 2 we have been learning about the continents of North America and South America. As part of this learning, we compared the sizes of the 10 biggest countries in North America and investigated biomes! On Friday, our learning about South America will take the form of the Amazon Rainforest and the Andes Mountain Range.

In Maths, we have finished our learning on comparing numbers and amounts and will focus on problem solving next week before moving on to addition. On Thursday, we were given a challenge to create true maths comparison sentences using a mixed assortment of numbers and comparison symbols.

For Religious Education, we created puppets and retold the creation story from Genesis 1 using our puppet theatre. The children did really well to remember their lines and match them up with the correct puppets while performing.
