

# Class 4 Weekly News

This week, Year 5 and 6 have explored our VIPER and Read to Write text 'Shackleton' in more depth, analysing the author use of language and working hard to include adventurous description in our own writing. To help with this, we completed an activity where we used personification to describe 'ICE'. See our descriptions below.

This week, along with the other curriculum areas, we have also worked hard in Maths learning solving complicated problems where the inverse is required, and worked hard in Geography studying Antarctica in more depth. Well done Class 4.
