

Class 1

Class 1 have had a super first week back in school and have enjoyed spending time with their new teacher Miss Haslam. In maths the children were learning about one more and one less, in phonics we have been learning the sounds 'sh' and 'r' and in Understanding the World children have had lots of fun engaging with space related activities.

Charlotte made a super rocket from magnetic polyhedrons. Sarvan enjoyed collaging the moon for our class display.

"There were 4 people on the bus, Alex got off and now there are 3 children left!" Ella
