

Class 1

This week the children have been very interested to learn about how and why we have the day and night and in maths the children have learnt about time by sequencing events that happen during the day. In phonics we have learnt the sounds 'y' and 'w' and have had lots of fun playing in our new class role play area - the space station.

Evie worked very hard writing about and drawing a picture capturing a scene from our vehicle text, 'The Darkest Dark.' Freddie C took inspiration from the story and chose to draw and collage the astronaut Chris Hadfield.

Arthur enjoyed playing in the tuff tray and setting up a space exploration scene. Ivy enjoyed learning the order of the planets by reading the names on our class rug. Great use of your phonics too!
