

Class 2

This week, we have been completing our Geometry unit on shape and symmetry in Maths lessons. Next week we will begin our work on Multiplication.

In Religious Education, we learnt about the Prophet Muhammad PBUH and the story of the Crying Camel. Our learning in Science took us outside to the Forest School Area where we explored, described and discussed Woodland Habitats. In Geography, we continued our map and direction work; using compass points to give directions on a map. In our spelling and VIPERS lessons, we have continued our work on Sleep Well Siba and Saba and the spelling pattern '-ge' which forms the /j/ sound.

Another busy week!
