## Class 3 Weekly News

Class 3 have been busy enjoying a variety of activities the passed week, from acting out poetry to raising awareness of Esafety and Children's Mental Health week.

For Esafety Day, Class 3 were taught about passwords and the importance of keeping safe online.

Children's mental health week 2023 focussed on "Let's Connect" and children were asked to think about ways in how we all connect together and the importance of talking to others to about our worries and concerns.

They then expressed their own design about how we all connect and created a paper chain for Class 3.
