

Class 3 Weekly News

This week in year 3, we have been learning about how plants transport water and we did some excellent leaf rubbings to show the tube systems in the leaf.

In English, Class 3 have been roving reporters, telling the story of the discovery of one of the lost characters in our book 'Into The Forest'.

Maths this week has focussed on telling the time on digital and analogue clocks and converting between 12 and 24 hour time.

There were some fabulous examples of Mayan Worry Dolls handed in from our homework project. Well done Class 3!
