

Class 1

This week the Year 5's have been in to spend time with us, supporting us with our reading and working together to create some beautiful works of art for our role play garden centre.

In maths we have been working on our numbers to 20. Evie represented 13 using the 10 frames and cubes.

We have been playing maths games to support us with learning our numbers to 20.

Ella "I need 10 more to make 20"

Freddie P built his own garden using Lego. "Look the Walrus has gone in the pond to eat the fish"

Freddie C drew a picture of a summer garden. What beautiful flowers on a sunny day!
