

Class 3 Weekly News

In class 3 this week we have started a new text called Jemmy Button, which is based on a true story. Children have written their own simile poems based on the setting.

In maths, we have been investigating angles and directions and made our own compasses to help us solve problems. Well done to year 4 for completing their multiplication check!

We also started our new topic 'Amazing Americas' and have identified the continents of North and South America and countries within them.
