

Class 1

What a great start to the week with a wonderful sports day! Although I couldn't be there, I did hear all about it and how fantastic Class 1 did. Well done everyone! In science this week we have been looking at animal habitats and the different things animals need to survive. The children had a great afternoon sorting the animals into their habitats.

Well Done to everyone in Class 1 for an excellent effort in sports day!

"The cheetah lives in Africa because it needs meat to eat."
