## FIRST AID GUIDANCE

### Contents:

1. The Law
2. Key Action Points
3. First Aiders
4. Appointed persons
5. Mental Health First Aid
6. First aid needs assessment
7. Communication of first aid arrangements
8. Accident reporting and record keeping
9. First Aid equipment
10. First Aid rooms
11. Further information

Appendix 1: Record of first aid treatment

Appendix 2: Recommended numbers of first aid personnel to be available at all times in T&W

Appendix 3: Recommended numbers of first aid personnel to be available at all times in T&W CORE BUILDINGS

Appendix 4: Mental Health First Aid and other Council wider support

### 1. THE LAW

The Health and Safety (First-Aid) Regulations 1981(as amended 1<sup>st</sup> October 2013) require the provision of First-Aiders/Appointed Persons and first-aid materials for employees.

Whilst the regulations do not state that employers have to provide first-aid for anyone other than their own staff the approved code of practice strongly recommends that the non employees are considered in the assessment of first aid needs and provision is made for them. It is Council policy to do this.

## **2. KEY ACTION POINTS**

Carry out first aid needs assessment to determine the level of first-aid provision required in terms of the following:

- the number of first-aiders/appointed persons/paediatric trained
- consider ways to manage mental ill health to include staff that are trained in Mental health first aid
- the need to consider mental health with physical health
- the number, content and locations of first aid equipment
- arrangements for off-site activities / remote working
- arrangements for activities taking place outside core hours

## **3. FIRST AIDERS**

3.1 First aiders may either be contractually obliged to take on this role or be selected from staff volunteers. A first aider needs to:

- Have a suitable calm, reliable disposition, an empathetic approach and good communication skills.
- Be willing and able to undertake the necessary training.
- Put their skills into practice when the need arises in sometimes stressful and physically demanding situations.
- Be employed in a post where they are readily accessible in case of emergencies.

3.2 First aiders are expected to:

- Check and replenish first aid boxes on a rota basis (to be agreed with other first aiders in the vicinity)
- Ensure the most up to date first aid list for their area is displayed next to first aid boxes and in core areas where needed
- Ensure contact and location details registered with the health and safety team are kept up to date
- Maintain confidential records of first aid treatment in accordance with section 7.

There are two types of training for first aiders:

### **3.3 First Aid at Work (FAW)**

At least an 18 hour course (not including breaks), over a minimum period of three days.

On completion of training, whether a full FAW course or a FAW requalification course, successful candidates should have satisfactorily demonstrated competence in all of the subject areas listed under 3.3 and also be able to:

- Administer first aid to a casualty with:
  - Injuries to bones, muscles and joints, including suspected spinal injuries;
  - Chest injuries;
  - Burns and scalds;
  - Eye injuries;
  - Sudden poisoning;
  - Anaphylactic shock;
- Recognise the presence of major illness and provide appropriate first aid (including heart attack, stroke, epilepsy, asthma, diabetes).

- Administer cardiopulmonary resuscitation (CPR) and use an automated external defibrillator
- Assess the situation and circumstances in order to act safely, promptly and effectively in an emergency;
- Provide appropriate first aid for minor injuries

This must be renewed every three years by means of a two day re-qualification course.

### 3.4 Emergency First Aid at Work (EFAW)

At least a 6 hour course (not including breaks), over a minimum period of 1 day.

On completion of training, successful candidates should be able to:

- Understand the role of the first aider, including reference to:
  - The importance of preventing cross infection;
  - The need for recording incidents and actions;
  - Use of available equipment;
- Assess the situation and circumstances in order to act safely, promptly and effectively in an emergency;
- Administer cardiopulmonary resuscitation (CPR) and use an automated external defibrillator;
- Administer first aid to a casualty who is unconscious (including seizure);
- Administer first aid to a casualty who is choking;
- Administer first aid to a casualty who is wounded and bleeding;
- Administer first aid to a casualty who is suffering from shock;
- Provide appropriate first aid for minor injuries (including small cuts, grazes and bruises, minor burns and scalds, small splinters).

This must be renewed every three years by means of a one day re-qualification course.

### 3.5 Paediatric First Aid

The current legal requirements for paediatric first aid are set out in the safeguarding and welfare section of the 2017 EYFS. The following information is taken from the 2017 Statutory Framework for the Early Years Foundation Stage published by the Department of Education, at least one person who has a current **full** paediatric first aid certificate must be on the premises and available at all times when children are present, and must accompany children on outings. Childminders, and any assistant who might be in sole charge of the children for any period of time, must hold a current **full** paediatric first aid certificate.

PFA training must be renewed every three years and be relevant for workers caring for young children and where relevant, babies. Providers should take into account the number of children, staff and layout of premises to ensure that a paediatric first aider is able to respond to emergencies quickly. All newly qualified entrants to the early years workforce who have completed a level 2 and/or level 3 qualification on or after 30 June 2016, must also have either a full PFA or an emergency PFA certificate within three months of starting work in order to be included in the required staff:child ratios at level 2 or level 3 in an early years setting<sup>33</sup>. Providers should display (or make available to parents) staff PFA certificates or a list of staff who have a current PFA certificate.

#### Emergency paediatric first aid training course - 1 day

Understand the role and responsibilities of the emergency paediatric first aider, have the ability to assess an emergency situation and prioritise your actions. You will also learn how to help a baby or child who is:

- unresponsive and breathing normally
- unresponsive and not breathing normally
- having a seizure
- choking
- suffering from shock

- bleeding

This must be renewed every three years by means of a one day re-qualification course

### **Paediatric first aid**

This two-day paediatric first aid course focuses on emergency scenarios that face those looking after young children and infants, including day nurseries, private nursery schools, pre-schools, before and after school clubs for children in the early years age group, childminders and carers of children at home.

The paediatric first aid course must meet the Ofsted Early Years and Childcare Register requirements.

Understand the role and responsibilities of the paediatric first aider.

Be able to assess an emergency situation safely.

#### **Be able to provide first aid for an infant and a child:**

- who is unresponsive and breathing normally, including child and infant resuscitation
- who is unresponsive and not breathing normally
- who has a foreign body airway obstruction
- with external bleeding
- with injuries to bones, joints and muscles.

#### **Understand how to administer emergency first aid to an infant and a child with a chronic medical condition or sudden illness:**

- sickle cell crisis
- diabetic emergencies
- asthma attack
- allergic reaction
- meningitis
- febrile convulsions.

#### **Understand how to administer first aid to an infant and a child:**

- who is experiencing the effects of extreme heat and cold
- who has sustained an electric shock
- with burns or scalds
- who has been poisoned
- who has been bitten or stung
- with minor injuries, including cuts, grazes, bumps and bruises, small splinters and nose bleeds
- with conditions affecting the eyes, ears and nose
- with head and spinal injuries
- with anaphylaxis
- who is suffering from shock.

#### **Understand how to complete records relating to illnesses, injuries and emergencies.**

This must be renewed every three years by means of a one day re-qualification course.

### **3.6 Defibrillator Training**

Some Council locations because of the high number of visitors, or associated risks, including leisure centres have defibrillators on site. These are also provided in Darby House, Southwater One, and Addenbrooke House due to the large number of employees on site. First Aid at Work training now includes the use of a defibrillator but additional training can be provided if necessary.

### **3.7 All first aiders must be allocated enough time to:**

- attend training
- carry out their routine responsibilities to check and restock first aid equipment
- review their first aid training materials.

**3.8 Insurance** The council's insurance policy covers claims arising from first-aid treatment given by staff acting within the scope of their employment.

### **3.9 First aid training provider**

First aiders must complete a training course administered by a competent First Aid training provider.

The requirement for first aid training providers to be HSE registered has been removed, however training organisations will still be required to meet certain standards/criteria set by the HSE.

Telford & Wrekin Council First Aid training provider offer 'regulated qualifications. These are nationally recognised and our training centre is registered as an 'awarding organisation' (AO). These AOs are recognised by national qualification regulators (Ofqual) that have dedicated policies and quality assurance processes that approve and monitor our training centres to ensure training meets standards set by the national regulators. The regulators stipulate that AOs and their training centres must work in compliance with the Assessment Principles for First Aid Qualifications – see the SQA website [www.sqa.org.uk](http://www.sqa.org.uk).

To book on any first aid courses please use the OLLIE site, there are a selection of dates but if there are none available or you can't attend the dates that are available please email [Co-operative.Admin@telford.gov.uk](mailto:Co-operative.Admin@telford.gov.uk) to request a place.

If you are not registered with the online booking system (OLLIE) you can access and book all your first aid training via [trainingenquiries@telford.gov.uk](mailto:trainingenquiries@telford.gov.uk)

School based staff should book direct with Steve Carter [steve.carter@telford.gov.uk](mailto:steve.carter@telford.gov.uk) on 01952 380161 or with Telford Occupational Health Service Ltd, Halesfield 13, Telford, TF7 4QP. 01952 581251 or email [jandt@tohs.co.uk](mailto:jandt@tohs.co.uk)

## **4.0 APPOINTED PERSONS**

An appointed person is someone who:

- takes charge when someone is injured or becomes ill
- ensures that an ambulance or other professional medical help is summoned when appropriate.
- looks after first aid equipment and restocking as necessary.
- ensures that the necessary accident reporting is carried out.

Appointed persons are not first aiders and should not administer first aid treatment that they have not been trained to do.

## **5.0 MENTAL HEALTH FIRST AID**

As part of the councils commitment to enhancing work-place mental health and to ensure that everyone has the same opportunity to progress in the workplace and achieve their potential, including those with mental health conditions staff can become Mental Health first aiders. This training enables those trained to identify and understand symptoms and be able to support someone how might be experiencing a mental

health issue and will teach delegates how to recognise warning signs of mental ill health and help them to develop the skills and confidence to approach and support someone, while keeping themselves safe.

Telford and Wrekin Council staff have access to a range of services that can be considered to assist with managing mental ill health in the workplace, that include information and training for managers and employees, access to the councils’ occupational health professionals, a team of mental health trained first aiders and a full employee support programme.

If you wish to become a Mental Health First Aider or would like more information on where to find a Mental Health First Aider contact the school office.

For further information take a look at what the HSE have to say on [managing workplace stress and mental health issues](#)

## 6.0 FIRST AID NEEDS ASSESSMENT

To work out what level of first aid provision is needed in any Telford & Wrekin workplace consider the factors listed in the table below. Where one factor indicates that a higher level of first aid provision is needed than another factor then the higher level should be implemented. The table below gives the **minimum** acceptable level of first aid provision.

**For further details on the number of first aiders (including Mental Health First Aiders) required for Telford and Wrekin core buildings see appendix 2**

Factor to consider	Space for notes	Impact on first-aid provision
<b>Hazards</b> (use the findings of your general risk assessment and take account of any parts of your workplace that have different work activities/hazards which may require different levels of first-aid provision)		
Does your workplace have low-level hazards such as those that might be found in offices and shops?		The minimum provision is: <ul style="list-style-type: none"> <li>• An appointed person to take charge of first-aid arrangements;</li> <li>• A suitably stocked first-aid box.</li> </ul>
Does your workplace have higher-level hazards such as chemicals or dangerous machinery?		Your should consider: <ul style="list-style-type: none"> <li>• Providing first-aiders;</li> <li>• Providing additional training for first-aiders to deal with injuries resulting from special hazards;</li> <li>• Providing a suitably stocked first-aid box;</li> <li>• Providing additional first aid equipment;</li> <li>• Precise location of first aid equipment;</li> <li>• Providing a first-aid room;</li> </ul>

		<ul style="list-style-type: none"> <li>Informing the emergency services of specific hazards etc in advance.</li> </ul>
Do your work activities involve special hazards such as hydrofluoric acid or confined spaces?		<p>You should consider:</p> <ul style="list-style-type: none"> <li>Providing first-aiders;</li> <li>Additional training for first-aiders to deal with injuries resulting from special hazards;</li> <li>Additional first-aid equipment;</li> <li>Precise location of first-aid room;</li> <li>Providing a first-aid room;</li> <li>Informing the emergency services of specific hazards etc in advance.</li> </ul>
<b>Employees</b>		
How many people are employed on site?		<p>Where there are small numbers of employees, the minimum provision is:</p> <ul style="list-style-type: none"> <li>An appointed person to take charge of first-aid arrangements;</li> <li>A suitably stocked first-aid box.</li> </ul> <p>Where there are large numbers of employees, ie more than 25, even in low-hazard environments, you should consider providing:</p> <ul style="list-style-type: none"> <li>First aiders;</li> <li>Additional first-aid equipment;</li> <li>A first-aid room.</li> </ul>
Are there inexperienced workers on site, or employees with disabilities or particular health problems?		<p>You should consider:</p> <ul style="list-style-type: none"> <li>Additional training for first-aiders;</li> <li>Additional first-aid equipment;</li> <li>Local siting of first-aid equipment.</li> </ul> <p>Your first-aid provision should cover any work experience trainees.</p>
Have you considered the Mental Health and wellbeing of your staff? Are there staff that have identified work pressures or personal mental health issues?		<p>You should consider:</p> <ul style="list-style-type: none"> <li>That everyone has the same opportunity to progress in the workplace and achieve their potential, including those with mental health conditions</li> </ul>
<b>Accidents and ill-health records</b>		
<p>What is your record of accidents and ill health?</p> <p>What injuries and illness have occurred and where did they happen?</p> <p>Has there been an increase of work related stress or staff raising concerns about work stressors?</p>		<p>Ensure your first-aid provision will cater for the type of injuries and illness that have occurred in your workplace. Monitor accidents and ill health and review your first-aid provision as appropriate.</p>
<b>Working arrangements</b>		

Do you have employees who travel a lot, work remotely or work alone?		You should consider: <ul style="list-style-type: none"> <li>• Issuing personal first-aid kits;</li> <li>• Issuing personal communicators/mobile phones to employees.</li> </ul>
Do any of your employees work shifts or out-of-hours?		You should ensure there is adequate first-aid provision at all times people are at work.
Are the premises spread out, eg are there several buildings on the site or multi-floor buildings?		You should consider the need for provision in each building or on each floor.
Is your workplace remote from emergency medical services?		You should: <ul style="list-style-type: none"> <li>• Inform the emergency services of your location;</li> <li>• Consider special arrangements with the emergency services;</li> <li>• Consider emergency transport requirements.</li> </ul>
Do any of your employees work at sites occupied by other employers?		You should make arrangements with other site occupiers to ensure adequate provision of first-aid. A written agreement between employers is strongly recommended.
Do you have sufficient provision to cover absences of first-aiders or appointed persons?		You should consider: <ul style="list-style-type: none"> <li>• What cover is needed for annual leave and other planned absences;</li> <li>• What cover is needed for unplanned and exceptional absences.</li> </ul>
<b>Non-employees</b>		
Do members of the public or non-employees visit your premises?		Under the health & Safety (First-Aid) Regulations 1981, you have no legal duty to provide first aid for non-employees but HSE strongly recommends that you include them in your first-aid provision.

## 7.0 COMMUNICATION OF FIRST AID ARRANGEMENTS

It must be made clear on all Telford & Wrekin premises who the first aiders are and where the first aid materials are kept. The standard white cross on a green background should be used to indicate first aid information. Lists of first aiders should be posted in prominent positions including adjacent to first aid boxes, on first aid room doors, in or near lifts and at reception areas. They are also available on the intranet for all the core buildings.

## 8.0 ACCIDENT REPORTING AND RECORD KEEPING

All first aiders should keep a record of first aid treatment given, when and to whom. This information should be kept securely in accordance with data protection principles. A suitable form for recording this is given in appendix 1.

If the administration of first aid was needed due to a work related accident or violent incident then the first aider should complete the relevant accident or violent incident form on behalf of the casualty if they are unable to do this themselves. Forms available on the intranet.

## 9.0 FIRST AID EQUIPMENT

First aid equipment should be kept in a known location where it is readily accessible in an emergency. This has to be balanced against trying to keep the equipment secure so that it doesn't suffer from pilfering. In a multi floor building where any first aider could be called to any floor the first aid kits should be kept in the same location on each floor as far as possible so that they can be found quickly. Where possible hand washing facilities should be close by.

Additional first aid equipment should be sited close to identified hazard areas eg kitchens, workshops, science laboratories.

At all times a balance needs to be struck between having sufficient first aid materials readily to hand to deal with likely emergencies and avoiding overstocking which causes wastage due to dressings exceeding their guaranteed sterility date and needing to be replaced. First aiders are responsible for replenishing first aid boxes.

When purchasing any first aid kit you should ensure they meet the necessary standards, The British Standards Institute (BSi) updated the contents in January 2019 to the following kits to meet the new standard:

- Workplace First Aid Kits – BS 8599-1
- Vehicle First Aid Kits – BS 8599-2

And also the BSi have also introduced two new kits:

- Personal Issue First Aid Kit
- Critical Injury Pack

### 9.1 First aid box contents:

#### 9.1 A standard first aid kit should contain:

- A leaflet giving general guidance on first aid, eg HSE leaflet - "*Basic advice on first aid at work*" <http://www.hse.gov.uk/pubns/indg347.pdf>
- 20 Individually wrapped sterile plasters (Assorted sizes)
- 2 Sterile eye pads
- 4 Individually wrapped triangular bandages (Preferably sterile)
- Safety pins
- Medium sized (approximately 12cm x 12cm) individually wrapped sterile unmedicated wound dressings
- 2 large (approximately 18 cm x 18 cm) sterile individually wrapped unmedicated wound dressings
- One pair of disposable gloves (vinyl)
- 1 Revive aid

It may also be useful to have 10 individually wrapped alcohol free wipes.

No tablets, ointments or medicines should be kept in the First Aid box

**9.2 Eye wash** is only required where there isn't ready access to mains water. Where it is needed it should be provided in the form of at least one litre of normal saline in a sealed disposable container. Containers should not be kept for reuse once the seal is broken and must not be used beyond their expiry date. Eye wash should be kept close to eye contamination hazards.

**9.3 Portable first aid kit for personal use** For employees who travel around a lot it makes sense for them to be provided with a small first aid kit to enable them to clean and dress a minor injury without the need to return to base. Their kit should contain as a minimum:

- 6 Individually wrapped sterile plasters (Assorted sizes)
- 6 individually wrapped alcohol free wipes.

## 10. FIRST AID ROOMS

Some Council premises, due the number of people using the premises and the nature of the activities taking place there, may warrant the provision of a first aid room. This room can be used for other compatible purposes eg as a place for expression of breast milk or carrying out medical examinations but should be readily available for first aid purposes whenever needed. Guidance L74 identifies criteria and contents of first aid rooms and is provided in the link below.

First aiders are encouraged to familiarise themselves on the location and contents of any first aid rooms in their premises so they could use them quickly and easily should the need arise.

## 11. EDUCATIONAL VISITS & JOURNEYS

In terms of Educational Visits & Journeys the party leader should assess what level of first aid might be needed and ensure that this is provided and first aid equipment is readily accessible. This should be considered as part of the risk assessment process. Please see further advice at <http://www.twccommercial.co.uk/educationalvisits>

## 12. FURTHER INFORMATION

## First Aid Treatment Record

**What we will do with your Personal Information** Telford & Wrekin Council is collecting your personal information for the purpose of meeting the statutory requirement of the Health & Safety at Work etc Act 1974. Telford & Wrekin Council will not share any of your personal data collected with external organisations unless required to do so by law when your data may be shared with other organisations for example the Health and Safety Executive (HSE) or the council's insurers. For further details on the council's privacy arrangements please view the privacy page on the council's [Website Page](#)

1. Date and time of incident:
2. Name of casualty:
3. Address of casualty:
4. Place of incident:
5. Circumstances of incident (ie what happened):
6. Name and contact details of witness(es)
7. Injuries/ ill health suffered:
8. Treatment given:
9. Did the casualty: (please circle)
  - Return to work/continue what they were doing?
  - Go home?
  - Go to their GP?
  - Go to hospital?
10. Name of First Aider:
11. Date of report:

NB If the incident was as a result of an accident or a violent incident please ensure that the relevant reporting form is completed online using MyView.

## Appendix 2

### Recommended numbers of first aid personnel to be available at **all times** in Telford & Wrekin

Level of risk associated with Service Delivery team	How many employees	Minimum number of qualified first aid trained staff	Consider previous injuries	Consider other factors
<b>Low risk</b> Offices Office based staff Libraries Meeting and greeting	Less than 25	At least 1 appointed person	Monitor accidents and ill health and review your first aid provisions annually	<ul style="list-style-type: none"> <li>• Inexperienced workers</li> <li>• Employees with disabilities/health issues</li> <li>• Employees that travel a lot, work remotely or lone work - issue personal first aid kit</li> <li>• Shift work</li> <li>• Out of hours</li> <li>• Premises spread out – several floors/buildings</li> <li>• Planned and unplanned absences of first aiders</li> <li>• Members of public visiting your services</li> </ul>
	25 -50	At least 1 trained Emergency First Aider at Work (EFAW) first aider		
	More than 50	At least 1 trained First Aider at Work (FAW) first aider for every 100 employed (or part thereof)		
<b>Higher risk</b> Leisure centres Care providers Catering Light engineering work Construction work Working with chemicals Using dangerous machinery Working in confined space	Less than 5	At least 1 appointed person	Monitor accidents and ill health and review your first aid provisions annually	<ul style="list-style-type: none"> <li>• Inexperienced workers</li> <li>• Employees with disabilities/health issues</li> <li>• Employees that travel a lot, work remotely or lone work - issue personal first aid kit</li> <li>• Shift work</li> <li>• Out of hours</li> <li>• Premises spread out – several floors/buildings</li> <li>• Planned and unplanned absences of first aiders</li> <li>• Members of public visiting your services</li> </ul>
	5 – 50	At least 1 EFAW or FAW trained first aider depending on the type of injuries that may occur		
	More than 50	At least 1 FAW trained first aider for every 50 employed (or part thereof)
